

## JCI Kulim Newsletter : January 2009

### *~ Message from President 2009 , JC Tan Shin Ni*

As the 2009 President of Junior Chamber International Kulim, I am honoured to be granted this opportunity to lead this wonderful chapter throughout the year.  
Sincerely thanks to all dedicated members for trusting on my leadership.

“No team is an island” just as every individuals need each other for help and support, so too do a team and to form the backbone for my beloved chapter- JCI Kulim,  
my presidential theme for this year is Together Everyone Achieve More(**T.E.A.M**). Contribution of every members, public, government, corporate global corporations etc indeed need in order for chapter to continue growth.

Execution of planned ideas into great projects that comprises of JCI value will surely needed stronger foundations where teamwork is primary for any projects to excel in flying color and practicing JCI Vision-to be the leading global network of young active citizens and JCI Mission-to provide development opportunities that empower young people to create positive change.

In response to the economic downturn which is being felt by major industry, sharpening our strength, building up our groups, undertake challenging projects and trained individuals to suit in circumstances, execute and build a better societies, better leaders and better societies .We, in JCI where “Learn By Doing” being apply and I believe by practicing JCI movement, we will be able to create a significant impact in community and members to achieve positive growth.

The effect of global warming is by now well known. Early effects of global warming and the increased of incidence of extreme weather are already in evidence. All of all can be averted if we to take action now and most importantly we could apply our resources towards future generation. So, in year 2009, JCI Kulim is striving to achieve goals towards environmental protection as to support the measure to reduce the carbon footprint as focus by JCI on environmental sustainability!  
By promoting environmental conservation, educating and developing awareness among members and in local communities, JCI Kulim is a step forward, wanting to contribute help to stop the negative impact of climate change, making positive change, action in one direction and ensuring a brighter future.

Though it is not easy, it is not difficult to accomplish the task through small actions but brings to global impact. Members should remember that we have the every chance to change and be better by gather together, lets not loose sight of our goals, keep them in clear view and recognize each step of the way, there'll sure a new “view” to reflect and new moment to make a difference although the world economy is slip down and affecting in major areas.

In JCI, we practices to serve to community. We believe our effort and sincerity that favored in members in making projects creates values and brings meaning to the community. Having this attitude gives us strength to bring help and the attitude with which we face these challenges makes all the differences.

I strongly urged that everyone of us could strive for excellence and continue along the path of perfection, we can pleasantly enjoyed the wonderful things we have learned, the amazing people we have met, the moments of inspiration that flash by and the people you have made a difference to, all of these add spice to what we call wonderful life in JCI.

I wish all of us a great success and let's continue light up the spirit in days to come for another greater height.

To chapter success,  
JC Tan Shin Ni  
President, JCI Kulim 2009
